Linda Lange suffered from anxiety, panic attacks, phobias, stress and fear for over thirty years, 18 of those years as a Christian. She wondered why she still had these problems, after all, "By Jesus stripes, we are healed." This only brought more confusion and stress to her life. She never felt the peace or joy or experienced many of the blessings found in the Bible. She just believed this was as good as it got. Well, she was wrong! She is here to tell her story with you about how God miraculously delivered her from all her fears! She now takes this message to others who need help in this area, because what God will do for one, He will do for another. Come, join us and discover wonderful revelations for yourself. She has helped hundreds all over the world come to a personal knowledge that has impacted their lives forever.
